Army Public School Danapur Cantt

04/2016 - 04/2018

Secondary (CBSE Board - Class 10th)

Army Public School Danapur Cantt

04/2015 - 03/2016

PROJECTS

TravelMate

- Developed a Tour Booking Website API using **Node.js**, **Express**, and **MongoDB**.
- Designed and implemented API endpoints using **RESTful** principles. Ensured the security and reliability of the API with encryption, authentication, and access control and Tested the API using Postman
- Implemented a minimal frontend that provide a simple and intuitive user interface for booking tours, making the entire process quick and easy for users.

BLOGGER

- web application which allows the user to write/read or comment on a blog after login
- Implemented the feature to like the post and to see the count of likes.
- This website is made by using **EJS, CSS, Javascript, HTML**. Data is stored by **MongoDB** service. It has a strong backend work and minimalistic design

TO-DO-LIST

- A website that helps you make your to-do list for your daily work. You can add tasks you want to do in a day and also delete them if you are done with them. This website can also generate a list with any title by just mentioning the title in the URL
- This website is made using **EJS, CSS, HTML, JavaScript** and its current data can be accessed by the developer as it uses **MongoDB atlas**.
